**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Pan (U.S. 5,908,432).

Note in figures 1-9 of patent to Dillon et al., an integral one piece handle (12) having an endless open end (24) and a longitudinally extending slot (62); a blade (30) mounted on a blade carrier (20) and slider (70) is formed as a separate part that snap fits to the blade carrier (20) after introduction through the open end (24) of the cavity (14,18); wherein the slider (70) and the extending slot (62) are provided with co-operating tooth and notch formations that cooperate to releasably hold the blade carrier (20) and slider assembly in "click-stop" manner in the operative and inoperative positions (see fig. 7, col. 3 and 4).

***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dillon et al. (U.S. 5,730,751) discloses a scalpel device.
